## ABOUT THE PLATFORM

Australia's first AI-native mining intelligence platform. We combine 350TB of proprietary geological data with real-time market feeds to auto-generate institutional-grade research.

## WHAT WE OFFER

- Co-Branded Research Distribution**  
Premium sector reports published under your firm's brand, delivered direct to your client list.
- Exclusive Deal Flow Intelligence**  
Priority access to AI-ranked ASX junior project pipelines ahead of broad market coverage.
- Branded AI Agent Access**  
A co-branded mining intelligence assistant for your HNW clients — positioning your firm at the frontier of research technology.
- Joint Webinar & Event Series**  
Quarterly co-hosted market briefings — a new touchpoint with resources investors.

## WHY PARTNER WITH US

### We see what's beneath.

Malcolm Gold Mine: AI-predicted location → visible gold at 23g/t. Research backed by physical proof, not opinion.

### Zero analyst overhead.

Institutional-grade reports generated automatically — no junior analyst, no turnaround wait.

### Your brand. Our engine.

All co-published content carries your firm's branding. We are the invisible intelligence layer behind your research.

## REPORT CATEGORIES AVAILABLE

- Macro & Geopolitical Risk
- ESG & Sustainability Rating
- Commodity Price Outlook
- M&A & Corporate Activity
- Drill Result Analysis
- Regulatory & Compliance
- Junior Explorer Pipeline
- Critical Minerals Strategy

## IDEAL PARTNER PROFILE

- ✓ Boutique broker or corporate advisory firm

- ✓ Active ASX resources client base (50+ HNW / wholesale investors)
- ✓ Existing research publication or client newsletter
- ✓ Interest in differentiated, tech-enabled market content

## 40-100×

Exploration success rate uplift  
(industry avg. 0.5% → we deliver 20–50%)

## \$180M+

Estimated cost to replicate our technology moat  
— 5–7 years to build

## 23g/t

Grade at Malcolm Gold Mine — AI-predicted  
location confirmed by physical discovery
